

Together Providing PPE to IFA Members for a Limited Time

Helping the franchise community re-open with necessary PPE.

BrightStar Care, a leader in home care, has sourced PPE for their agencies to help remain open during COVID-19. Working with Franworth, who handles the internal procurement and distribution process, they were able to successfully source, store and distribute PPE. Franworth and BrightStar Care are now excited to extend the opportunity to purchase PPE products at-cost to IFA members to protect your employees and customers as your locations prepare to re-open.

At-Cost Pricing & Shipping

Our priority is getting PPE to those who need it most, and that is why our products are priced at-cost. This no-mark-up strategy is intended to ease the burden of acquiring high-quality PPE versus fighting the marketplace fraud and supply chain bottlenecks you may have experienced.

Process & Availability

All of our PPE is already housed and distributed from within the U.S. and varying expedited shipping options are available for you to choose from, while supplies last.
